

program for increasing the energy efficiency of existing commercial and industrial buildings. The program encourages corporations, state and local governments, and other organizations to participate in a partnership with EPA to make cost-effective energy-efficiency improvements in their buildings. In return, EPA provides technical support to help program participants apply proven technologies to achieve maximum efficiency at the lowest cost. EPA also publicly recognizes participants for their efforts and publicizes participant achievements. The overall goal of the program is to reduce utility-generated emissions by reducing the energy consumed in commercial and industrial buildings.

Participation in the program is initiated by completing and signing an Energy Star Buildings Memorandum of Understanding (MOU). The MOU outlines the responsibilities of the participant and EPA, and is used to establish participation in the program and agreement to the terms of participation. Other than the name of the organization, signature, and date, no other information is requested on the MOU. The Energy Star Buildings MOU is an addendum to the Green Lights MOU, which requests more detailed information. The burden associated with the Green Lights MOU was covered in ICR No. 1614 and is not covered in this ICR. Information from the MOU is entered into a data base that serves as a source of general information and as a mailing list.

As a condition of program participation, partners agree to complete and submit to EPA an annual facility report on each building undergoing energy efficiency improvements. On the annual reports, partners provide information such as stage of project completion, project cost, historical and current energy use and cost data, and ancillary information such as building name, location, and size. EPA reviews the annual facility reports to track project implementation efforts and to obtain data on the costs and benefits of the energy efficiency improvements being made. This information is used to calculate the amount of utility-generated emissions prevented, evaluate program effectiveness, and publicize partner achievements and program results.

EPA will also collect additional, project-specific technical information from some partners concerning the energy-efficiency improvements made. This collection will include information such as building age and construction, utility and fuel rates, financial and economic criteria used to evaluate and select investment opportunities, types

and sources of project financing, project and equipment costs and rates of return, and technical details concerning the building's lighting, heating, ventilating, and air conditioning equipment and systems. EPA will use this information to evaluate and refine its technical strategies and implementation support tools.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: EPA estimates an average annual respondent burden of 4,362 hours for the information collection activities associated with the Energy Star Buildings program. The total burden is comprised of the following information collections:

(i) MOU: EPA estimates that, on average, 191 new partners will join the Energy Star Buildings program each year by completing and submitting an MOU. The total annual respondent burden for the MOU is 1,385 hours, or 7.25 hours per MOU.

(ii) Annual Facility Report: EPA estimates that, on average, a total of 565 annual facility reports will be submitted by 353 partners (respondents) each year, for a total annual respondent burden of 2,697 hours. This equates to 1.6 annual facility reports per partner, or 4.8 hours per report.

(iii) Additional Technical Information: EPA estimates that, on average, 35 partners (respondents) each year will submit additional technical information on their actual upgrade projects. The burden for this information collection is 280 hours, or 8 hours per response.

These estimates include the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources;

complete and review the collection of information; and transmit or otherwise disclose the information.

No person is required to respond to a collection of information unless it displays a currently valid OMB control number.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

Dated: November 2, 1995.

Jean Lupinacci,

Chief, Energy Star Commercial and Industrial Buildings Customer Support Branch.

Public Meetings of the Urban Wet Weather Flows Advisory Committee and Storm Water Phase II Advisory Subcommittee

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) is convening two separate public meetings: (1) the Urban Wet Weather Flows (UWWF) Advisory Committee meeting on December 4-5, 1995, and (2) the Storm Water Phase II Advisory Subcommittee meeting on December 6-7, 1995. These meetings are open to the public without need for advance registration. The UWWF Advisory Committee will focus on the issues papers being developed by the work groups on Storm Water Phase I Improvements, Water Quality Standards and Watershed Approach. The Committee's agenda will also include a status report on the SSO Subcommittee and the Storm Water Phase II Subcommittee. The Phase II Advisory Subcommittee will: (1) Discuss and adopt operating protocols; (2) review the "Storm Water Discharges Potentially Addressed By Phase II of the National Pollutant Discharge Elimination System Storm Water Program Report to Congress" and the National Water Quality Inventory (305(b)) Report in detail; (3) hear a number of case studies; and (4) review the progress of the work groups on the role of government, technical and programmatic options, and small construction sites and no exposure industries.

DATES: The UWWF Advisory Committee meeting will be held on December 4-5, 1995. On December 4, the meeting will begin at approximately 8:30 a.m. EST and run until about 5:00 p.m. On December 5, the meeting will run from about 8:30 a.m. until completion. The Phase II meeting will be held on December 6-7, 1995. The December 6

meeting will begin promptly at 9:00 a.m. EST and end at approximately 8:30 p.m. On December 7, the meeting will begin at 7:45 a.m. and end at approximately 4:15 p.m.

ADDRESSES: Both meetings will be held at the Resolve Center for Environmental Dispute Resolution, 2828 Pennsylvania Avenue NW., suite 402, Washington, DC 20007. The Resolve telephone number is (202) 944-2300. A block of 75 rooms per day has been reserved at a special rate (until November 13) at the St. James Hotel, 950 24th Street NW., Washington, DC, telephone (202) 457-0500. The block of rooms are reserved from Sunday, December 3 through Friday, December 8. The rooms are listed under "urban wet weather meeting."

FOR FURTHER INFORMATION: For the UWWF Advisory Committee meeting, contact William Hall, Urban Wet Weather Matrix Manager, Office of Wastewater Management, at (202) 260-1458, or Internet: hall.william@epamail.epa.gov. For the Phase II Subcommittee meeting, contact Pamela Mazakas, Storm Water Phase II Matrix Manager, Office of Wastewater Management, at (202) 260-6599.

Dated: November 3, 1995.

Michael B. Cook,

Director, Office of Wastewater Management, Designated Federal Official.

Meeting; Clean Air Act Committee

The Mobile Sources Technical Advisory Subcommittee to the Clean Air Act Committee is convening a meeting on December 1 from 10-3 at the Ramada Detroit Metro Airport, 8270 Wickham Rd., Romulus, Michigan. There is some chance this meeting may have to be cancelled closer to the date if EPA's budget authority is not clarified; EPA is now operating under a Continuing Resolution which expires on November 13. This meeting will address primarily EPA's Heavy Duty Nox initiative. Questions can be addressed to Katherine McMillan, Designated Federal Official to the Subcommittee, at 202-260-3420.

Katherine McMillan,
Associate Director, Policy, Planning and Budget Division, Office of Mobile Sources.
